- UV proof and rodent repellent

#### STORAGE/ FEED OUT

- Shelf life upto 18 Months
- High Quality feed guaranteed

## WHAT IS CORN SILAGE ?

Corn Silage is one of the best green fodders used in the dairy industry across the world. It is a very nutritious animal fodder with 8-9% protein and 3000 Kcal /kg digestible energy. The quality of corn silage is superior to any available green grass with more dry matter and long shelf life

**Harvesting using world class technology**

**Packaging with high compaction**

## SUMMARY

**7 Years of experience**

**65,000 Tons of corn silage produced**

**17,500 Customers**

**1,60,000 Animals fed corn silage**

**4,00,000 Liters extra milk produced**

**₹16 Crores Labor cost saved**

## NUTRITION PROFILE

<b>Dry Matter</b>	<b>30-40%</b>
<b>Crude Protein</b>	<b>7-9%</b>
<b>ADF</b>	<b>25-35%</b>
<b>NDF</b>	<b>35-50%</b>
<b>Starch</b>	<b>25-35%</b>
<b>Ph value</b>	<b>3.7-4.2</b>
